

# Drawn to the best — your career in structural drafting

## What is structural and drafting?

Drafting is at the heart of great engineering. Working collaboratively with engineers on design, drafters breathe life into the vision for a structure or development so they can be built quickly and efficiently.

## Drafting@Holmes

The nationwide drafting team uses jet-powered software, combining creativity and attention to detail with a deep appreciation of engineering principles. Our Holmes drafters are leaders in BIM (Building Information Modelling), working right at the forefront of technological advancement in our industry.

## Life@Holmes

Our Drafting Cadets tell us they love the positive culture, career growth and iconic projects at Holmes. You'll work alongside some of New Zealand's best drafters, getting all the support and training you need on exciting designs. When we've finished work we bring the same energy and enthusiasm to our team activities — quizzes, winter trips, sports, fun challenges and events that help us relax and get to know each other better.

## Apply now!

If you're up for a great team environment and chance to work alongside the best in the business, apply now!
